35-80%

TERM

48 months

ISSUE DATE

30 June 2022

SECONDARY TRADING

Yes

BOND CLASSIFICATION

Bonds will be issued and registered in electronic form on the platform operated by Globacap Limited.

About this Offering

The Arion Equestrian Portfolio represents an opportunity to participate in a profit-generating horse development program — managed by Vision2024, an equestrian development specialist — to generate financial returns from sport show-jumping horse acquisition and development.

- Arion Digital Bond investors will participate with 75% ownership of a portfolio of 20 sport horses and will share in the proceeds generated from the sales.
- Bonds are profit participating, with distributions beginning in March 2023, and continuing semi-annually until Maturity in March 2026.
- Arion Digital Bonds can be transferred freely.
- The return on investment is expected to be between 35% – 80% based upon the level of success of the development of horses and their sales prices.

Investment Strategy

Vision2024's strategy of investment into quality horses is to achieve above-average results by investing on a larger scale and using a professional development program. The keys for success are scale, well-prepared scouting and a selection program, ensuring maximum value appreciation because of the right categorization and treatment of the horses. The development program itself includes matching horses with suitable riders along with their sports progress.

Team

Vision2024 was founded by group of experienced entrepreneurs, investors and professionals in the equestrian business, with 20+ years of experience in the field and a proven and successful track record in the industry. The company is utilising its wide network and close relationships with breeders, riders and traders to continue to build on its initial success.
